

PLEASE NOTE

Inner sleeves are packed with the opening across the top of the sleeve. We advise orientating your artwork to match the 'FRONT' and 'BACK' text on the template.

The tabs of the Polylined Inner Sleeves are glued to the outside of the back panel. Due to this, we do not recommend artwork that continues onto the back panel. Production cannot ensure that the print will be seamless or that the tabs will line up perfectly with the graphic on the back panel. We recommend the use of solid colour, or a pattern/texture that doesn't require perfect alignment.

KEY

- Trim Line
- Fold Line
- Final Position of Glued Tabs
- 3mm Safety Area - Important text and logos should not be in this area.
- 3mm Required Bleed Area - Background should extend to this line.
